System reports

A professional and conscientious computer scientist with an experience in Java for android development, Flutter for iOS and android development, PHP, JavaScript and its frameworks especially node.js and all main web technologies like HTML CSS and MYSQL. I am also a proficient graphics designer with skills and experience in Photoshop, illustrator and CorelDraw. A highly organized and efficient individual, whose thorough and precise approach to tasks and attention to details has yielded excellent results. My portfolio is comprised of several websites and applications and a windows desktop application. Some achievements are an application with 100000 downloads in the play store and the Kenya National Lands Commission Compensation windows-based desktop system, an M-health application for Mary land Global initiatives Kenya, an order management application, a HR leave management application and now a healthy and safety compliance application.

## Work History

2020 to  
Current

### Software developer

*Ellixar Technologies, Nairobi, Kenya*

- With the help from a team of now 5 developers I strive to deliver the best quality customized software for my clients.
- Over the years we have created our own custom solutions that are used by users on a monthly subscription. Which is a great joy of mine as I Founded Ellixar aimed at offering high quality software to the large number of SME businessES

2018 to  
2020

### Software developer

*EasyTech Solutions Limited, Nairobi, Kenya*

- With the help from the rest of the team I am tasked to develop all clients required solutions.
- Work to improve the already developed client's systems to make sure they maintain the most recent technologies.
- Performs problem analysis for system designs, development, testing and implementation.
